Makita has released two new Framing Nailers for the LXT® platform. Engineered for pro users, this duo of Framing Nailers delivers power, dual firing modes, and adjustability for nail depth.

FOR IMMEDIATE RELEASE

MAKITA RELEASES NEW 18V LXT® 21° and 30° FRAMING NAILERS

New LXT® Framing Nailers deliver the power of pneumatic without the hassles of air hoses

May 05, 2025, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has announced the release of two new Framing Nailers for the LXT® platform. Engineered for pro users, this duo of Framing Nailers delivers power, dual firing modes, and adjustability for nail depth.

The new Framing Nailers are powered by the same fast-charging 18V batteries that are compatible with 350+ LXT® products.

- **XNB03** – The 18V LXT® 21º Full Round Head 3-1/2" Framing Nailer drives full-round head nails into dense engineered lumber with power and ease. It features a rear lock-and-load magazine with 41 nail capacity for maximum efficiency. The 21º Full Round Head 3-1/2" Framing Nailer drives 21º plastic collated framing nails from 2" to 3-1/2" in length and .113 to .148 in diameter.

- **XNB07 -** The 18V LXT® 30º Clipped Head 3-1/2" Framing Nailer drives full-clipped head nails into dense engineered lumber with power and ease. It features a rear lock-and-load magazine with 58 nail capacity for maximum efficiency. The 30º Clipped Head 3-1/2" Framing Nailer drives 30º collated framing nails from 2" to 3-1/2" in length and .113 to .131 in diameter.

“Makita is a leader in the woodworking category and continues to expand the LXT® platform with tools and equipment that pros use every day,” said Fernando Serratos product marketing manager, residential construction, Makita U.S.A., Inc. “With the release of the 21º and the 30º Framing Nailers, Makita is giving pros a tool in their arsenal that delivers the power of pneumatic, can drive nails into dense engineered lumber, and can travel around a job site without the limitations of an air hose.”

Advantages

Both the XNB03 and the XNB07 will give pro users a significant advantages providing a portable and powerful nailing solution that delivers the power of pneumatic without the hassles of dragging around an air hose. The Nailers can drive up to 1,000 framing nails on a single charge of a 18V LXT® 6.0Ah battery (battery sold separately).

Convenience Features

Convenience features include a built-in L.E.D. light that illuminates the work area, a belt hook with a retractable extra-wide tool hook that secures the tool when not in use, and an ergonomically designed handle with a rubberized soft grip that provides increased user comfort.

Makita® LXT® System

The new Framing Nailers are part of Makita's expanding LXT® system, the world's largest cordless tool system powered by 18V Lithium-Ion batteries. Makita 18V LXT® batteries have the fastest charge times in their categories, so they spend more time working and less time sitting on the charger.
