**FOR IMMEDIATE RELEASE**

*Makita has released the new 40V max XGT® 2 Gallon HEPA Filter Portable Wet/Dry Dust Extractor/Vacuum (GCV14), which is a compact Wet/Dry Handheld Canister Vacuum/Dust Extractor for janitorial and industrial construction cleaning and dust management.*

## MAKITA RELEASES NEW COMPACT WET/DRY VAC ON THE XGT PLATFORM

New 2-gallon vacuum is a portable solution for janitorial, industrial cleaning, dust management and more

**November 4, 2025, La Mirada, CA** – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the new 40V max XGT® 2 Gallon HEPA Filter Portable Wet/Dry Dust Extractor/Vacuum (GCV14), which is a compact Wet/Dry Handheld Canister Vacuum/Dust Extractor for janitorial and industrial construction cleaning and dust management.

“Makita goes deep in the vacuum and dust extraction category, and the new XGT vacuum combines efficient cleaning with portability in a compact size,” said Wayne Hart, sr. communications manager, Makita U.S.A., Inc. “This versatile vacuum has wet and dry capability, includes a HEPA filter for efficient dust extraction, and quickly converts from a vacuum to a blower. This compact vacuum is an ideal cleaning solution for a wide range of users.”

### More Suction Power

The new Dust Extractor/Vacuum features over 75% more suction power with 102 CFM, 60" water lift, and up to 60% lower noise than the 18V LXT® Wet/Dry Dust Extractor/Vacuum (XCV11) . The Vacuum delivers over 3 hours of continuous run time on Low and delivers up to 35 minutes on High when running one XGT® 40V 8.0Ah battery (BL4080F, sold separately).

### Accessories

The GCV14 includes additional accessories for efficient cleaning, including the Wet Filter (1915T4-4), a Paper Filter Bag Set, 10-pack (1915W3-3), a Shoulder Strap (199486-4), and a 7" Black Crevice Nozzle (4132U6-2). Also available (but sold separately) is the Caster Wheel Set (4) (1915G5-1) which allows the GCV14 to be rolled around the floor for maximum convenience.

### Convenience Features

Convenience features include a handle on top of the tool that stores out of the way and provides increased comfort during transport, an on-board hose and nozzle storage allow for easy and convenient transport, as well as a quick-release latch for easy removal and disposal of debris from canister. It also features integrated tethering hooks for increased portability with shoulder strap included (part no.199486-4) for convenient carrying.

### Makita® XGT® System

XGT® is a system of equipment, tools, batteries and chargers utilizing 40V max lithium-ion batteries. XGT® is engineered to deliver high power to take on high-demand applications, allowing users to completely transition to a cordless job site. XGT® is equipped with advanced brushless motor engineering, intelligent digital communication, and superior durability features to outpower, outsmart and outlast the rest.
