FOR IMMEDIATE RELEASE

The new 10" Slide Compound Miter Saw (LS1110F) is a compact and lightweight miter saw that is ideal for portability on the job site.

MAKITA RELEASES NEW 10" SLIDE COMPOUND MITER SAW

New compact and powerful corded miter saw is ideal for use on job sites

November 4, 2025, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released a new 10" Slide Compound Miter Saw (LS1110F) that is ideal for baseboard and crown molding installation, finish carpenters, cabinet and furniture makers, wood floor installers, deck builders, general construction and more.

"Makita is synonymous with quality woodworking tools and continues to develop new tools to get the job done," said Fernando Serratos product marketing manager, residential construction, Makita U.S.A., Inc. "The new 10" Slide Compound Miter Saw gives users multiple miter settings, features a powerful motor, and compact and lightweight for portability on the job site."

High Cutting Speeds and Low Weight

The Makita 10" Slide Compound Miter Saw features a compact and lightweight design for job site portability. It features a powerful 13.0 AMP direct drive motor that requires less maintenance and delivers cutting speeds of up to 4,500 RPM. It also features a compact design and weighs only 36.2 lbs. for job site portability.

Miter Capabilities

The LS1110F can cut miters from 0°- 47° left and 0°- 47° right, with positive stops at 0°, 15°, 22.5°, 31.6°, 45° and 47° (left and right). The dual rear handle bevel lock is easily accessible and adjusts 0°- 47° (left) and 0°- 2° (right) with positive stops at 0° and 45° (left). It cuts up to 12" at 90° and 8-1/2" at 45°.

Dust Extraction Capabilities

The 10" Slide Compound Miter Saw features a dust port for attaching the included dust bag; it also connects to a Dust Extractor/Vacuum (sold separately) for more efficient dust collection. The LS1110F features a see-through blade guard system for greater visibility of the blade and line of cut.

Taller Fence for Increased Cutting

The LS1110F also features a large precision-machined aluminum base that supports the material being cut for more efficient cutting. It features an exclusive 2-1/2" tall fence system for increased vertical cutting capacity.

Convenience Features

Convenience features include a soft start feature for smooth start-ups, a built-in L.E.D. light that illuminates the line of cut for increased accuracy, as well as an ergonomic rubberized D-handle design for better fit and added comfort. The 10” Slide Compound Miter Saw includes extension wings for supporting long work pieces.4 lines of text

Specifications

Description	36V (18V X2) LXT® Cordless 4 CFM Dual-Stage Vacuum Pump (DVP181ZK)
Form Factor:	18V LXT®
Ultimate Vacuum (Pa/Microns):	3/22.5
Flow Rate (Cubic Feet per Min):	4 CFM
Compression:	Dual-Stage
Check Valve:	Yes
Inlet Size:	5/16" NPT, 3/8" NPT
Voltage:	36V
Pump Type:	Oil-Sealed Rotary Vane
Run Time (max. in minutes):	60
Oil Tank Capacity:	10 oz.
