FOR IMMEDIATE RELEASE

Makita has released its most powerful Hammer Driver Drill (GPH03), delivering 1,590 in.lbs. of max torque with a three speed transmission. It is available as both a Bare Tool and as a Kit

MAKITA RELEASES ITS MOST POWERFUL HAMMER DRIVER DRILL

New XGT® drill has 3-speed settings and up to 1,590 in.lbs. of Max Torque

February 3, 2026, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the Makita 40V max XGT® 3-Speed 1/2" Hammer Driver-Drill (GPH03Z) as a Bare Tool, as well as the Kit version (GPH03SU1). The Kit features the GPH03, as well as one (1) 40V max XGT® 4.0Ah High Power Battery (BL4040F), a 40V max XGT® Fast Charger (DC40RC), and a tool bag.

Most Powerful Hammer Driver Drill

The Makita 40V max XGT® 3-Speed 1/2" Hammer Driver-Drill (GPH03) is Makita's most powerful Hammer Driver Drill delivering 1,590 in.lbs. of max torque with a three speed transmission. The GPH03 breaks new ground for the most demanding drilling and driving applications in wood, masonry and metal. The hammer-drill mode applies a percussive motion for drilling holes in concrete or masonry

Faster Drilling Speeds

The GPH03 features an electronic digital clutch that accurately targets the desired torque range during fastening (41 settings in low speed, 30 settings in medium, 21 settings in high). It features faster drilling speeds with 3 speed settings (0-650 / 0-1,800 / 0-2,600 RPM) (0-9,750 / 0-27,000 / 0-36,000 IPM).

Twice the Working Speed

The 3 Speed Hammer Driver Drill features Active Feedback-sensing Technology (AFT®), which turns the motor off if rotation of the accessory is suddenly forced to stop. It also features twice the working speed without overloading batteries in Medium Speed*.

Increased Job Site Durability

The GPH03 features a redesigned side handle that provides stability and grip under heavy torque applications to maintain control. It also features an all-metal chuck for increased job site durability and a reinforced gear housing that is engineered for maximum job site durability.

Makita® XGT® System

XGT® is a system of equipment, tools, batteries and chargers utilizing 40V max lithium-ion batteries. XGT® is engineered to deliver high power to take on high-demand applications, allowing users to completely transition to a cordless job site. XGT® is equipped with advanced brushless motor engineering, intelligent digital communication, and superior durability features to outpower, outsmart and outlast the rest.

*vs. Previous models with only 2 speed

Specifications

Description	40V max XGT® Brushless Cordless 3-Speed 1/2" Hammer Driver-Drill (GPH03)
Chuck Size:	**1/2"**
Maximum Torque (in.lbs./N•m):	**1,590 in.lbs./180N•m**
Capacity (masonry):	**13/16"**
Capacity (steel):	**13/16"**
Overall Length:	**7-3/4"**

About Makita

Makita is a worldwide manufacturer of industrial power tools, power equipment, pneumatics, and cleaning solutions that offer a wide range of industrial accessories. Makita U.S.A., Inc. is located in La Mirada, California, and operates an extensive distribution network throughout the U.S.A. With over 50 years in the United States and over 100 years worldwide, Makita utilizes experience and expertise to manufacture best-in-class solutions.
