FOR IMMEDIATE RELEASE

Makita U.S.A. has released the has released the 40V max XGT® Grease Gun (GPG01) that features a Makita-built brushless motor that delivers up to 175% higher flow rate. It delivers up to 12 oz./min flow rate at 10,000 PSI of Max pressure.*

MAKITA RELEASES NEW XGT® GREASE GUN

Grease Gun features a brushless motor that delivers up to 10,000 PSI maximum pressure

May 5, 2026, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, power equipment, and accessories, has released the 40V max XGT® Grease Gun (GPG01). The new Grease Gun features a Makita-built brushless motor that delivers a category-leading flow rate of 12oz. per minute at 10,000 PSI of max pressure. The Grease Gun has four speed settings with a digital display for a precise flow rate.

“The new Grease Gun delivers a higher flow rate, four speed settings for easy flow control, and higher max pressure,” said Robert Monroe, product manager, drilling, fastening and expansion, Makita U.S.A., Inc. “It gives more options to maintenance professionals to get their job done quickly and more efficiently.”

Speed Control and Precise Greasing

The new Grease Gun includes Air Lock Detection, engineered to prevent damage and misapplication of grease due to grease replacement air lock. It features Constant Speed Control, which ensures stable, consistent discharge during greasing. The Constant Speed Control function is also responsible for precise greasing, and the Discharge Counter allows preset discharge control up to 99 strokes.

Greater Access to Fittings, Faster

The Grease Gun features a 47-1/4" flexible hose that offers greater access for difficult-to-reach fittings. It also features a new barrel loading design that makes grease canister changes quicker and reduces air lock and the air bleed valve assists in faster pump priming.

Convenience Features

Convenience features include a trigger lock function for user convenience during longer work periods. It features a stand-up design and a shoulder strap that provides increased comfort on the job. It also features twin L.E.D. lights with a separate switch that helps locate hard-to-see grease fittings in low light.

Makita® XGT® System

XGT® is a system of equipment, tools, batteries, and chargers utilizing 40V max lithium-ion batteries. XGT® is engineered to deliver high power to take on high-demand applications, allowing users to completely transition to a cordless job site. XGT® is equipped with advanced brushless motor engineering, intelligent digital communication, and superior durability features to outpower, outsmart, and outlast the rest.

Specifications

Description	40V max XGT® Brushless Cordless Grease Gun (GPG01)
Maximum Pressure:	10,000 PSI
Maximum Flow Rate:	12 fl. oz./min
Lock-On Switch	Yes
L.E.D. light:	Yes
Speed Settings:	4
Air Lock Detection:	Yes
LCD Display:	Yes
Constant speed control:	Yes
