FOR IMMEDIATE RELEASE

The new Makita MAKTRAK® is the Next Generation in Modular Storage Systems®. This new expansion of the MAKTRAK® system gives users more options with a design that allows for zero-interference access, dual hinged lids, open transport based without handle interferences or unstacking, and the system fits under truck bed covers for ease of transport.

MAKITA EXPANDS MAKTRAK®, THE NEXT GENERATION IN MODULAR STORAGE SYSTEMS

New tool boxes are compatible with existing MAKTRAK® products

October 3, 2026, La Mirada, CA – Makita U.S.A., Inc., manufacturer of high-quality professional tools, outdoor power equipment and accessories, has expanded the MAKTRAK® Modular Storage System to include three new storage solutions and a series of low-profile organizers for storing and organizing smaller accessories, fasteners and more.

MAKTRAK® TOOL BOX RELEASES

- **Rolling Tool Box (T-90227):** Features a telescopic handle and 9” all-terrain wheels with shallow treads for convenient transportation in a variety of jobsite environments
- **Rolling Single Drawer Tool Box (T-90233):** Drawer features dual-slide drawer rails and can be accessed without unstacking
- **Compact Tool Box (T-90211):** Features six organizing compartments that allow the user to split the interior space for increased organization

“The new MAKTRAK® expansion gives users three new tool boxes to organize and transport tools and equipment to and from the job site,” said Andrew Camp, VP of Product Management, Accessories, Makita U.S.A. “The versatility of the MAKTRAK® system gives the user endless combinations to customize their setup to meet their needs better.”

ADDITIONAL MAKTRAK® RELEASES

- **Low-Profile Sub-Compact Box (T-90283):** Features a small footprint with a clear lid to see inside contents more easily
- **Low-Profile Sub-Compact Organizer (T-90299):** Features layered foam customizable inserts for increased protection of tools
- **Low-Profile Sub-Compact Box with Customizable Foam (T-90308):** Features open storage boxes for organizing insert bits or other small accessories

“Makita designed and engineered the Sub-Compact Cases as a Power Tool Accessory Case that would be compatible with the existing MAKTRAK® product range,” said Andrew Camp, VP of Product Management, Accessories, Makita U.S.A. “It is compatible and acts as a great “topper” for every MAKTRAK® system out there, and can be a great benefit to users who have already purchased MAKTRAK® in the past, or those that are making the choice to go with the MAKTRAK® system.”

More Convenience, More Efficiency

MAKTRAK® gives users the ability to open storage boxes and get tools and accessories without unstacking. The dual-hinged lids allow access from both sides, and the innovative design means the handle won’t get in the way.

Added points of difference include the innovative open channel self-cleaning connection system, which allows for quick attachment for stacking and quick detachment when needed. This convenient connection system combined with the variety of tool box sizes gives users multiple configurations that can be specific to the needs of almost any job site.

The MAKTRAK® System includes a full line of stackable and configurable tool boxes that feature innovative storage solutions that can be customized to fit the needs of almost any user. The MAKTRAK® system is built to withstand tough job site conditions and features large glove-friendly latches for easy access.

MAKTRAK® Web Page Allows Users to Build Their Own System

The new MAKTRAK® expansion is backed by an interactive web page that allows users to select and stack MAKTRAK® elements on-screen, then view their selection in a 3-dimensional view application and download a PDF of their configuration. They can also share their MAKTRAK® configuration with friends via email or on their Facebook and Twitter pages. Users can also search for a Makita Authorized Dealer. The page can be found at makitatools.com/MAKTRAK.
